

Tell **THE TRUTH:** Lies Create Fear. And that's not good for democracy.

Someone is lying to you. They want to influence your October 27th municipal election vote by lying about the future of Midhurst.

A fear-mongering flyer from the "Friends of Midhurst" provides a list of "approved" candidates they claim will "save" Midhurst. And it lies about what development means for Midhurst.

THE LIE:

-  Midhurst development will harm wetlands and watersheds.
-  Midhurst development will increase taxes.
-  Midhurst development approvals were done in secret in back rooms.

THE BIGGEST LIE OF ALL:

-  A future council can cancel the Midhurst development.

THE TRUTH:

-  Midhurst development must meet over 140 conditions aimed at protecting the Minesing wetland and other natural heritage features. Midhurst development meets or exceeds best practices for watershed management as mandated by the Nottawasaga Conservation Authority.
-  In addition to expanding the municipal tax base, Midhurst developers will upfront the costs of water, sewer and roads services. Existing residents will not pay higher taxes because of this development.
-  Midhurst development has gone through a public approvals and input process more than 30 years long. It's all on the public record.
-  Read the legal opinion of renowned municipal lawyer George Rust-d'Eye online at: www.midhurstfirst.ca/documents/legal_opinions

Don't let politicians supported by lies get into office.
